

THE DRY BONES ARE REVIVING (EZE 37:1-10)

Joel's Army first rose during the Book of Acts. A non-stop, 2,000-year-old counter-offensive by the enemy has severely hindered the advancement of that army; in most cases, the army was essentially stopped, and in some places, driven completely out. Occasionally, small battalions of the army rose up to fight, but they were not fully equipped to sustain the battle, and the enemy was able to stop them. This is speaking of revivals in the past.

But the dry bones of the army that was birthed on the Day of Pentecost are being revived by the uncorrupted Word of God and the anointing of the Holy Spirit, fully fleshed in the spirit with the spiritual physique of a professional body-builder, whose lungs breathe not the breath of man, but the breath of My life and anointing, and within who I am able to release an anointing so complete it has not been seen at this level since the early days of My Church. The bones of this army will no longer be dry but will be completely filled with the nourishing marrow of My life that will supply all the nutrients needed for sustenance.

This army will have a boldness and confidence that translates into absolutely no fear of anything the enemy can do. It will not be intimidated by any sickness, disease, physical abnormality or demoniac; it will see all these things as already being conquered by the King, with their responsibility being to bring into order the victory that was already won.

This army will see through every distraction of news media, social unrest, political upheaval, and the yammering voices of lukewarm or carnal or cold Christians who are not pressing into Me. Instead, their focus will be on Me, My Word, My will, My voice and their assignment. They will be My remnant revival army that work in the fields of humanity to bring about a great harvest of souls into My Kingdom.

This army is even now in preparation, getting ready for an invasion into the kingdom of darkness that the enemy will not be able to stop. My joy, the joy of the Lord, will be a non-stop flow of strength to them. I do not draft anyone into this army, but I never stop recruiting. Do you want to be a part of this army? Then join. Go through the boot camp of flesh mortification and I will fully equip you for the battle.
