

A Wave of Judgment and Conviction (PD241124 – Nov 24, 2024)

*The Lord says*, There is being released a new wave of judgment in My Church. As you would say it, I'm tired of the compromise. I'm tired of Christians who proclaim the Name but live otherwise. Though I am not literally tired, I'm using your terminology to help you understand that when I come back, I am returning for a Church that is a pure spotless bride. I look throughout the world and I see far too many who put their faith in Me choosing to live without Me.

In this new wave of judgment, the first thing that is coming is conviction. I am going to lay conviction on the hearts of My Church in such a way that they will know that I am calling them to repentance and holiness. I will have it no other way. I did not die so that you could live by the flesh. I died so that you can receive new life and live according to that life.

In the days to come, there is going to be increased conflict within My Church as those who are pressing deeper into Me are attacked by those who are pressing further away from Me. There will be name calling. There will be accusations. But know this, I warned you ahead of time that if they do it unto Me, they'll do it unto you. So, prepare yourself for what is coming, for some of you are going to be attacked by your own family. But as I've said in My Word, be strong in Me and in the power of My might and you will endure. Remember, your responsibility is not to change other people, but to live the change in front of them so that they will see a difference in you.

This conviction is coming, and many are going to be very uncomfortable with it. Some will blame sermons, declaring that the preacher was singling them out, but this will not be true. Some will leave churches declaring that there's too much legalism being preached. But I did say that the gospel would be an offense.

You need to know that My Church has been far too lazy in living for Me, and this has got to change. This outpouring and revival that you speak of, it begins within My Church. That means it begins within the hearts of those who have called upon the Name of the Lord and been saved. I will use you to do great things in this world, but your submission and to Me is vital.

So, I say to you be prepared for what is coming and do not be shocked if you see more churches closing. Whereas I have shared and described in My Word, there is a remnant. I encourage you, continue to press into Me and be a part of this remnant and do not assume that just because you said you're a part of the remnant means you are. It requires mortification of the flesh, a laying down of self and preferring Me above all others and everything else. I'll be there to help you, but you must want it.

So again, be prepared; this new wave of conviction is coming. Be strong in Me. Press into Me. Do not worry about the choices of others. Be concerned about your walk in Me. Endure to the end and you will spend eternity with Me.
