

God Works in the Stillness (PD220130B – Jan 30, 2022)

Do not take for granted these times of stillness and quietness before Me. Though you may not feel anything, I want you to know I am working in you. If you go to a doctor and that doctor is going to perform surgery, the doctor will first administer some form of anesthesia so that you do not feel what that doctor is doing, so that you do not feel that surgery, that cutting, that removing, that repairing that is done inside you. Likewise, your praise and your worship enable Me to be a vital and active part of what you're doing, whether you're at home or here in these services.

My presence is here and those who are truly seeking Me will sense My presence. In these times of stillness and quietness, though you may not feel anything, I am working in you to will and to do of My good pleasure. I am working in you to help bring about change. Do not take for granted these times of stillness and quietness before Me. Do not let these times become just a religious exercise, just another thing that is done. As you are sitting in My presence in these times of stillness and quietness, focus on Me. Pay attention to Me. Sometimes you will hear Me speak to you, minister to you; other times you will not hear anything, but you will know that I am moving in you and upon you.

So do not take these times for granted. Do not allow them to be something that you don't appreciate the way that you should. I am moving and I am moving in every single person who is truly open to receive from Me. It's one thing to say you're open to receive from Me, but it's another thing to truly desire My presence and My work within you. So do not neglect these times, do not ignore these times, do not diminish these times, for they are of great value and they are of great benefit to your spiritual growth. So participate in these times, sitting in the refreshing presence of My glory and let Me work in you because the end result will absolutely be worth every moment in My presence, says the Lord
