

Worship Into the Greatness of Glory (PD202219B – Sept 18, 2022)

Worship is a path into the greatness of My glory. You can pray with the understanding and with the Spirit and experience My presence. You can even experience My presence to a degree by meditating in My Word. But worship is a path into a level of My glory that cannot otherwise be obtained or experienced. I live in your worship. I say that because I want you to understand how valuable and important your worship is. You truly enjoy the times of worship here in this place; I want you to enjoy it away from this place. What happens here should be something that takes place in your life away from here. I want to move through you and I will tell you this, if you will begin to worship Me when you are away from this place, wherever that might be for you, you will begin to experience more of Me, more of My presence, more of My glory and it will bring about a great change in your life.

The biggest problem that I see in so many of My children is a failure to believe this. But I say to you, if you will make the effort to worship Me away from here, and do it from your heart – regardless of what you feel, make a determination within you that you mean it – when you do it, then you will begin building up, as it were, a storehouse of My glory within you. You will have more of Me in your life, just like you prayed for, just like you sang about. It will happen.

So do not forget that worship is a path into greater levels of My glory. And there will be times when I'll move through you and you won't even think I'm moving. Do not look for a physical experience, do not look for feelings in your flesh that I am present or that I'm moving, just allow Me to move through you. Consider My Son Jesus. He never had to wait until He felt something physically. He just moved. And so I say to you, the same is true. Worship is a path into greater levels of My glory. All you have to do is worship Me, mean it from your heart and you will experience more of Me, says the Lord.
