

Moments of Time (PD221009 – Oct 9, 2022)

*I want to share with you something that the Lord shared with me:*

Every moment of time is used or not used. Every passing of the second hand will be productive or not productive. Every thought during the passing of time matters. Every thought during the passing of time is based on who you are or who you used to be [before being born again]. Every moment of time is a moment that you agree with who I say you are, or it doesn't.

Moments of time – so very crucial as you seek more and more to be who you are. Moments of time – they can be robbers or they can be builders. They can rob you of understanding everything I have placed in you. They can rob you of the very life you have. But moments of time can be builders each time you use them for Me.

Every moment you spend with Me, you are building. Every moment you spend praying in tongues, you are building. Every moment you spend worshipping Me, you are building. Every moment you spend fasting, you are building. Let the moments build you. Don't allow the moments to be robbers in your life.
