

WORSHIP OPENS A DOOR TO GOD PD210221

Feb 21, 2021

You've heard much about being in My presence, but what you haven't heard enough of is Me being in your presence. You see, it's not all about you. It's also about Me. Your worship is like opening a door and inviting Me to fellowship with you. Yes, I want you in My presence, but I want to be in your presence as well. I want to fellowship with you. And the most effective way to do that is through worship.

The more you worship Me the less you'll wonder where I am during challenging times. The more you worship Me is the more you will be training your spirit to be increasingly sensitive to My presence. I want you to know that I am with you and I want to be with you. Your worship is so critical for this.

I have too many churches that call upon the Name of My Son, but they just will not worship. They will sing songs to Me and about Me, but they never pursue the element of worship, true worship, that enables Me to fellowship with them on a deeply personal level.

Please understand, when I said I would never leave you and never forsake you – I meant it. But during your worship, it's as though we can have very close fellowship and you will get to know Me better, for I already know you. Please take this to heart. Please understand, when you are focused on Me, truly focused on Me, your worship is not in vain.

I move in your midst, both here collectively as you worship Me in a congregational setting, but also privately when you're alone. I will make My presence known to you. The more you do this is the more you're going to understand where you're heading in Me and in revival.

I am pleased with your worship and I speak encouragement to you. Continue to worship Me. Take it seriously. Take advantage of it and make it a focal point of your life. I do not have that many churches who will do this. And know this: I will keep My Word to you. I will move in your midst and you will know My Glory, says the Lord.
