

GOD'S PRESENCE IS A PRIORITY PD210616

June 16, 2021

The Lord says, more than another sermon, more than another song, more than another declaration of My Word, you need My Presence. My Presence brings with it the joy, the peace, the comfort and the conviction that you need. Too many of My children ignore the concept of conviction. If I do not convict, how will you know what to choose? Too many of My children refuse to accept conviction and blame others for condemnation.

But I say to you, you need My Presence. The more you experience My Presence is the more you will hunger for worship, for My Word, for line upon line teaching because when My Presence touches your spirit, your spirit rejoices. Your spirit rejoices in that it is experiencing what it longs for.

So I say to you, do not refuse sermons, worship or any of those things, but embrace and seek for My Presence above all. For I have said in My Word that I am love and in My Presence you will find all the love you could ever need. So seek My Presence. Do not neglect the other. But seek My Presence, not just away from here, but when you are gathered together in My Name. I will make My Presence known to you if you will do this, says the Lord.
